A kitchen display system, built for your business.

A complete **display system** designed for your kitchen and your business.

While it may not be a customer-facing product, a restaurant's kitchen display system, or KDS, is arguably one of the most important pieces of any operation. PAR KDS is a fully redesigned and developed product by PAR built for the harsh restaurant environment, but intuitive enough for kitchen staff to easily use to control order management. Free up space! The Kitchen Display System is mountable on the wall, ceiling, table and more. The all in one bracket system keeps your controller, bump bar, and power supply together with your display, decreasing the footprint needed. With one power cable and cable management features, the PAR KDS simplifies install and prevents clutter.

Bump Bar

Take control of your bump bar with our built-in bump bar layout utility. Redesign the bump bar button layout to accommodate your business and staff. With our layout utility, you have full control over button size, placement, color, and more!

Designed & developed for every concept

PAR KDS: Windows 10 Operating System, 21.5" TFT LCD Backlight Monitor with Optional Touchscreen Available, Dual USB/Serial Interface, All-in-one Mounting Feature, Capacitive Touch Bump Bar, Built-in Speakers with Sound Options, Intel® Apollo Lake Controller CPU, Capacitive Touch Bump Bar with Watertight Design

KDS Controller: 1.2kg, 2.65lb

**The best choice for
sound drive-thru
results.**

A complete **drive-thru** headset system designed to give you a competitive edge.

Making sure drive-thru orders are handled quickly and accurately is an excellent way to improve the QSR customer experience & keep guests coming back. Now, PAR is helping you tap into the full potential of your drive-thru with an all-in-one communication system that combines unmatched sound clarity with rock-solid reliability.

Smarter Sound

- Advanced Noise Reduction that cuts through the hum of noisy engines
- Acoustic echo cancellation for clear communications

Modular Design

- The only headset on the market to feature a modular design
- Comfortable, form fitting & durable

Designed for Today's Drive-Thrus

- Effortlessly upgrade from single to dual-lane on-site, no new equipment required
- Easy manager supervision to ensure timely lane response time

Efficiency at your Fingertips.

- Fine Dining

**mobility
designed
for growth.**

PAR Tablets are designed to be a powerful, fast and mobile piece of your restaurant's full-scale POS solution.

Our newest touchscreen tablets are powered by an Intel Apollo Lake processor, so you can decrease customer wait times, arm staff members with line-busting technology and provide the best guest experience possible. Our EverServ Enterprise Tablets work with PixelPoint software, providing kitchen staff with real-time order information as soon as it's entered into the system.

Built for Restaurants

- The Advantage is designed and built for harsh environments.
- The device has an IP65 rating with a 1.5 meter drop spec which means the device is both water and drop resistant.

Engage Your Customers

- Tablets for your staff to engage with customers, not stuck behind a counter
- Bends to your operational needs
- Cut training costs when migrating from other POS

Versatile

- Mobile/Table POS
- Table Management
- Store/Inventory Management
- Personalized shopping experience
- Customer Loyalty

Faster. Better. Stronger.

Offered in both 8" (20cm) and 10" (25.4cm) versions, PAR's Enterprise tablets are faster and stronger than ever, featuring:
